

Major Gates of the Army has been dismissed by the President for alleged non-performance of duty in the Florida war.

The Richmond and Fredericksburg rail road is now completed and in operation between the former city and Chesterfield.

**Wilmington and Raleigh Rail Road.**—We learn from the Wilmington Advertiser that the Engineers have surveyed the route through Weymouth to Halifax, and are engaged on the route through Tarboro.

The U. S. Bank of Pennsylvania has established an agency in Boston. A meeting in Providence (R. I.) of merchants, at which all the Banks of that city were represented, requested an agency to be established there.

**Volunteers for Texas.** A Company of more than 60 emigrants with their officers left Lexington, Ky. on the 2nd June for Texas. Another company was to leave the same place two days afterwards. About the same time upwards of 200 men were expected to leave Louisville Ky. for the same destination, besides companies from three of the adjoining counties.

A letter has been published in the Florida papers addressed by Col. White, delegate in Congress from that territory, to the President, requesting that Gen. Scott be "relieved" from the command in Florida.

The wandering piper is now piping in Philadelphia. He says his expenses in the U. States have amounted to \$4247 and that he gave to charitable institutions \$3,856.

We are happy to announce that the injury to the wheat crops in this section of the country, from the depredations of the Fly, though considerable, falls far short of what was expected a few weeks since, and that there is now reason to hope that a tolerable crop will be made.

Jonesboro' (Tenn.) Rep. & Jour.

No fewer than 119 new companies were started in London during the past year; of these 41 are for forming purposes, 35 for the establishment of rail ways, and 43 miscellaneous: the capital for the entire companies amounts to the enormous sum of fifty-six millions eight hundred and forty-five thousand pounds sterling.

A man attempting to jump from a train of cars while in motion on the Worcester Rail road, fell across the rail and the engine passing over his legs, cut them off below the knees.

A stage, with all the baggage, which fell through the ice, near Coteau de Lac, Upper Canada, last winter, has been recovered. In one of the trunks there were nearly \$17,000 belonging to the Montreal City Bank.

**Large Saw-fish.**—A large sized saw-fish, the largest ever taken in our harbor, was in a seine, on Saturday afternoon back of Castle Pinckney. It measured, in length including the saw, upwards of 14 feet.

Charleston Courier.

Twenty years have transpired since the State of Indiana was admitted into the Union. During the time from that to the present period its population has increased from 60,000 to 600,000. In 1816 it had one member of Congress—it has seven now. A State law was passed last winter appropriating \$10,000,000, for the construction of canals, railways and Macadamized roads which are intended to intersect every part of the State. The routes have been already surveyed and a portion of the work commenced, and the Indiana Democrat expresses its confidence that all the works contemplated by the bill, will be commenced and completed.

**Acquittal of Robinson.**—Judge Edwards charged the Jury at great length, recapitulating the testimony, instructing the Jury upon points of law and the inferences to be made from the various facts and circumstances which were developed in the course of the trial.

He charged them particularly in reference to the testimony of the dissolute females, who had given evidence in the case, directing them that whenever the testimony of Mrs. Townsend, Emma French and Elizabeth Salters came in collision with that of reputable witnesses, the former should be set aside and disregarded.

At half past 12 o'clock, the jury retired; and in 15 minutes thereafter returned into court with a verdict of NOT GUILTY.

The father of Robinson, who was lately tried and acquitted, in New York, is thus described by a correspondent of the Philadelphia Gazette:

"An aged gentleman with a countenance intelligent and anxious, admitted within the bar, was pointed out to me by my friend as the father of Robinson.—He gazed steadily at his young and unhappy son, with feelings such as only a parent could appreciate on such an awful occasion. 'Poor boy!' he repeated often to himself, as I could perceive by the motion of his lips. As the selection of the jury went on, his emotions overcame him; the big tears were wrung from his agonized heart, and fell thickly along his cheek. He turned away to a corner of the apartment, and, shunning the public gaze, looked out of the court room window then dim and trickling with the moisture from the multitude present.

I have seldom witnessed a more exciting object of sorrow and pity, and was forcibly reminded of a similar in the trial of Effie Deans in The Heart of Mid Lothian."

**PATENT SELF-SETTING SAW-MILL DOGS.** Hardy & Lich, of Lockport, New York, have invented patent self-setting saw-mill dogs, which are highly spoken of. They are made of cast iron fitted on wood, and by no means complicated. When the log is placed on the carriage, the thickness of the board or plank is accurately cut to the required width, entirely by the machine, which is strong and simple. The boards are represented as being sawed of a uniform thickness, leaving no stub-shot.

The London papers state that the large sleeves of ladies dresses have gone entirely out of fashion.

The Newport Mercury, of the 11th inst. says—"This number completes 78 years since the Newport Mercury was first published, (June 12th, 1758,) by James Franklin, eldest brother of Dr. Benj. Franklin.

**Connecticut School Fund.**—On the 31st March 1835, the balance of income on hand, in cash, was \$26,152.04, interest, dividends, and rents, received into the Treasury for the year ending March 31, 1836, \$82,333.03; temporary loan, repaid to the Treasury, \$19,100; interest on said loan \$1,872.83. Disbursement during the past year \$126,276.03, leaving on hand of the revenue of the fund, \$83,092.42. Capital Stock on first of April, 1836, was \$2,099,920.89.

**General Houston and Santa Anna.**—The Louisville (Ky.) City Gazette says, that these opposing commanders are old friends; and that when in Washington, some years since, when Santa Anna was in exile, they were engaged in attempting to negotiate a loan of three millions, for the purpose of conquering Texas and Mexico. Houston vaunted at the time that he would yet revel in the Halls of Montezuma.

**Wheat Crop.**—The destruction of Wheat by the fly is much more extensive than we had supposed. In some places the loss is total in others little more than the seed Wheat will be made. In Frederick and Washington Counties, we understand some farmers have ploughed up their crops with the view of raising buckwheat. We learn that Wheat put in the ground late in the fall, has generally fared better than the earlier sowing.—Balt Chron.

**Taking of the Veil.**—Several novices took the veil, in the Chapel of the Convent of Visitation at Georgetown, (D.C.) on the 11th inst.

The Hon. Arnold Naudain, of Delaware has resigned his seat in the U. S. Senate. The Legislature of Delaware, now in session, will, it is presumed, immediately supply the vacancy.

The Eastern Mail, (says the Mobile Mercantile Advertiser) has commenced running through the Creek nation again. A white man, painted like an Indian, is said to have been at the bottom of the attack on the Mail coach and passengers in the Creek nation some time since, and he is reported to have been followed and captured in Tennessee, and to be now in the jail of Chambers county.

**Rail Road Accident.**—As the 5 o'clock passenger train from Lowell was coming to town on Tuesday week, when about three miles this side of Lowell, and travelling at its greatest speed, an axle of the tender broke, and of course threw the tender and several of the cars from the track. The tender was broken in pieces, and two of the passenger-cars were much injured. It is remarkable that, although the train was at that moment travelling with great rapidity, probably exceeding the rate of sixty miles an hour, no person received any bodily injury.

**MARRIED.**

At her residence in Marlboro' on the 23d inst. by the Rev. Mr. Martin, Doctor Washington Booth, of Lawrence County, Alabama, to Mrs. Maria B. Moffitt.

**DIED.**

At her residence in Darlington District, on Wednesday the 15th inst. Mrs. HARRIET L. McCALL, the wife of Mr. George W. McCall, and the youngest daughter of Thomas Harle, Esq. late of Marion District. In the death of this amiable woman her affectionate and devoted husband and her three small children have suffered an irreparable loss; her brothers and sisters have lost a kind, affectionate and beloved relative; and many of her acquaintances a warm and devoted friend; and the Methodist Church, of which she was an exemplary member, one of its brightest ornaments. This lovely and gracious woman has been called to rest when all her hopes, prospects and anticipations in life were bright and flattering as the sun shine of Spring.—She had numbered but a few months over twenty-five years of age when death closed the scene and snatched her from time to her reward on high. But "death loves a shining mark," and a shining one, in this instance, he surely had,—one so bright in virtue and spotless integrity—so gloriously appraised in all the graces and comforts of Religion, that the monster was robbed of its sting, and the dark cold grave obtained no victory. She was for several years a professor, and no doubt a possessor of Religion, and adorned her profession with all the graces of the christian spirit. And as she lived so she died, with a full and unwavering reliance on a gracious and mer-

ciful Redeemer, and with the full assurance of an eternal reward in the mansions of bliss on high. And although she suffered much bodily affliction during her last illness, yet her mind was composed and calm as 'summer evenings by' and in prospect of death she was perfectly resigned to the will of her Heavenly Father: willing to live or to die as to him seemed best. And when death approached he had no terrors for her, but with a holy resignation of soul, she committed her husband and three small children to the care and into the hands of a merciful Redeemer, and bidding them an affectionate farewell, with an exhortation to all around to meet her in Heaven, she breathed her last on earth, and we doubt not, took her flight to the saints everlasting rest on high.

Blessed are the dead that die in the Lord, from henceforth; yea said the spirit, that they may rest from their labors, and their works do follow them."

**Green County (Ohio) Gaz.**

**Melancholy Accident.**—On Wednesday morning, as the canal boat Pacific, on her downward passage, was passing through the dam, just above this place, she was met by another boat, the Rosanna. The boats struck, and the sudden shock knocked overboard a young girl aged about 14, by the name of Sarah Hicks, a passenger in the Pacific. An elder brother of the name of Jacob, aged 18, immediately plunged in to the rescue of his sister. After vainly struggling for some time to save his sister, he succeeded in getting within twenty feet of the shore; they both sunk to rise no more. The heroic boy having clung with the desperation of a forlorn hope to his sister, anxious and determined to save or perish with her, became exhausted, and, in endeavoring to keep his sister above the water was himself borne down; another older brother also jumped in to their assistance, and was near going with his brother and sister to "that bourne from whence no traveller returns," but was rescued by the boatmen.

The deceased children were brought to this borough, and were decently interred—a large portion of the citizens in attendance. It was a sad, mournful and heart-rending sight to see two coffins borne through our streets followed by an almost broken-hearted widowed mother and her remaining offspring—strangers in a strange land—not a familiar voice to soothe the tears of woe.

The widow and remaining children received every attention at the hands of the people of this borough.

The family had moved to Illinois about three years since—they had not been very prosperous. During the last summer the father and four out of nine children died. The remainder were about returning to their friends.—Journal.

**Baltimore, May 25.**

**Seven miles of Canal Boats.**—On the 5th inst. a breach occurred in the Erie Canal at Utica, which required four days to repair it. During this period the crowd of boats collected near the breach was so great that it required ten days to fill the canal with water to navigable height. The Albany Argus of Saturday, from which we derive these facts, adds—"A letter from the superintendent to the Comptroller states, that on Tuesday (the day on which the repairs were completed) the boats had accumulated above the breach, lying so as to touch each other, through a distance of seven miles, to Oriskany."

**The Silk Culturist.**

AND FARMER'S MANUAL.  
Published monthly by the Executive Committee of the Hartford County Silk Society, at 50 cents per annum. Volumes I. and II.

THE object of this publication is to disseminate a thorough knowledge of the Silk business. The cultivation of the Mulberry Tree in all varieties—rearing Silk Worms—the production of Cocoons—reeling and manufacturing Silk, and Dyeing the same. The publication will contain a complete manual of the Silk Culture from sowing the seed to preparing for market—Sewing Silk and Twist—and will keep the Culturist advised with regard to the progress of the enterprise—the formation of Societies and Companies. Enactments of Legislatures for the promotion of the object, and facts, and experiences of individuals. It will also contain choice articles on new and interesting subjects connected with agriculture.

THE CULTURIST was commenced in April last—and there are now published Five Thousand Copies monthly, with a rapidly increasing circulation. Arrangements have been made to furnish the First volume to those who make early application for the Second. Each volume will contain ninety-six quarto pages. One dollar forwarded to F. G. Constock, Secretary, Hartford, Conn. free of expense will pay for both volumes or fifty cents for the latter. The second volume commenced the first of April. No subscription received unless paid in advance.

Knowing the great difficulty of obtaining genuine Seed at a distance, the Secretary of the Society will forward White Italian Mulberry Seed for 1000 Trees, to those who are subscribers to the First Volume and order the Second and to such as subscribe for both Volumes before the first of July next.

Newspapers carrying the above will be entitled to the second volume.

Fayetteville, June 23.
